

## SAFETY DATA SHEETS

## SECTION 1: Identification

1.1 GHS Product identifier Product name

Triethanolamine oleic soap DX1899

- 1.2 Recommended use of the chemical and restrictions on use Indentified uses industrial and scientific research use.
   Uses advised against no data available
- 1.3 Supplier's details Company Address Telephone
- 1.4 Emergency phone number Emergency phone number Service hours

Provided by dxchem.cn.For reference only; 020-82118890;

Dexu New Material (Guangzhou) Co., Ltd;

020-82118890; Monday to Friday, 9am-5pm (Standard time zone:UTC/GMT+8 hours )

## SECTION 2: Hazard identification

2.	1	Classification of the substance or mixture		
		Product definition	Single substance	
2.	2	GHS label elements, including	g precautionary statements	
		Pictogram(s)	No symbol	
		Signal word	No signal word	
		Hazard statement(s)	none	
		Precautionary statement(s)		
		Prevention	none	
		Response	none	
		Storage	none	
		Disposal	none	
~	~		1	

2.3 Other hazards which do not result in classification no data available

## SECTION 3: Composition/information on ingredients

### 3.1 Substances

Chemical name	CAS number	Molecular formula	
Triethanolamine oleic soap	10277-04-0	C24H47NO4	

SECTION 4: First-aid measures

4.1 Description of necessary first-aid measures

### If inhaled

Fresh air, rest.

#### Following skin contact

Rinse and then wash skin with water and soap.

### Following eye contact

First rinse with plenty of water for several minutes(remove contact lenses if easily possible), then refer for medical attention.

#### Following ingestion

Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a doctor or Poison Control Center immediately.

### 4.2 Most important symptoms/effects, acute and delayed

Industrial use of compound involves no known hazards. Ingestion causes mild irritation of mouth and stomach. Contact with eyes or skin causes mild irritation.

# 4.3 Indication of immediate medical attention and special treatment needed, if necessary

Immediate first aid :Ensure that adequate decontamination has been carried out. If patient is not breathing,start artificial respiration, preferably with a demand-valve resuscitator, bag-valve-mask device, or pocket mask,as trained . Perform CPR asnecessary. Immediately flush contaminated eyes wiyh gently flowing water. Do not induce vomiting. If vomiting occurs,lean patient forward or place on left side (head-down position, if possible)to maintain an open airway and prevent aspiration. Keep patient quiet and maintain normal body temperature.Obtain medical attention. Organic acids and related compounds.

## SECTION 5: Fire-fighting measures

## 5.1 Suitable extinguishing media

Use water spray, dry chemical, foam or carbon dioxide. Water or foam may cause frothing. Water spray may be used to flush spills away from exposures.

- **5.2** Specific hazards arising from the chemical The chemical is combustible.
- **5.3** Special protective actions for fire-fighters Use water spray, powder, foam, carbon dioxide.

### SECTION 6: Accidental release measures

# 6.1 Personal precautions, protective equipment and emergency peocedures

Collect leaking and spilled liquid in covered containers as far as possible. Wash away remainder with plenty of water.

### 6.2 Environmental precautions

Collect leaking and spilled liquid in covered containers as far as possible. Wash away remainder with plenty of water.

### 6.3 Methods and materials for containment and cleaning up

Cover with soda ash or sodium bicarbonate. Mix and add water. Neutralize and drain into a drain with sufficient water.

## SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

No open flames. Handling in a well ventilated place. Wear suitable protective clothing. Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Use non-sparking tools. Prevent fire caused by electrostatic discharge steam.

## **7.2** Conditions for safe storage, including any incompatibilities Separated from strong bases. Keep containers closed and store in cool and dark places.

德旭新材料(广州)股份有限公司 Dexu New Material (Guangzhou) Co., Ltd.

## SECTION 8: Exposure controls/personal protection

8.1 Control parameters Occupational Exposure limit values no data available Biological limit values no data available

### **8.2** Appropriate engineering controls Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. Set up emergency exits and the risk-elimination area.

# 8.3 Individual protection measures, such as personal protective equipment

Eye/face protection Water safety spectacles. Skin protection Protective gloves Respiratory protection Use local exhaust Thermal hazards no data available

## SECTION 9: Physical and chemical properties and safety

### characteristics

Physical state	Liquid	
Colour	Brownish red	
Odour	no data available	
Melting point/freez	zing point	no data available
Boiling point or in	nitial boiling point and boiling range	no data available
Flammability		non-combustible
Lower and upper exp	no data available	
Flash point		no data available
Auto-ignition tempe	erature	no data available
Decomposition tempe	erature	no data available
рН		8.0-10.0
Solubility		soluble in water
Density		1.02
Particle characteri	istics	no data available

### SECTION 10: Stability and reactivity

- 10.1 Reactivity No specific reactivity was reported.
  10.2 Chemical stability
  - Generally stable.
- 10.3 Conditions to avoid Oxidant
- **10.4** Dangerous decomposition products carbon monoxide, carbon dioxide, nitrogen oxide.

## SECTION 11: Toxicological information

Acute toxicity Inhalation : no data available Dermal: no data available Skin corrosion/irritation

no data available Serious eye damage/irritation no data available Respiratory or skin sensitization no data available Germ cell mutagenicity no data available Carcinogenicity no data available Reproductive toxicity no data available STOT-single exposure The substance is mildly irritating to the eyes and skin. STOT-repeated exposure no data available

## SECTION 12: Ecological information

### 12.1 Toxicity no data available

- 12.2 Presistence and degradability no data available
- 12.3 Bioaccumulative potential no data available
- 12.4 Mobility in soil no data available
- 12.5 Other adverse effects no data available

## SECTION 13: Disposal considerations

## 13.1 Disposal methods Product

The material can be disposed of by remove to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

### Contaminated packaging

Containers can be triply rinsed and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.

## SECTION 14: Transport information

## 14.1 UN Number

- 14.2 UN Proper Shipping Name
- 14.3 Transport hazard class(es)
- 14.4 Packing group, if applicable
- 14.5 Environmental hazards ADR/RID: No IMDG: No IATA:No
- 14.6 Special precautions for user no data available
- 14.7 Transport in bulk according to IMO instruments no data available

## SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question

Chemical name	CAS	number
Triethanolamine oleic soap 1027		7-04-0
European Inventory of Existing Commercial Chemical Substances		Listed
EC Inventory		Listed
United States Toxic Substance Control Act Inventory		Listed
China Catalog of Hazardous chemicals 2015		Not listed
New Zealand Inventory of Chemicals		Listed
Philippines Inventory of Chemicals and Chemical Substances		Listed
Vietnam National Chemical Inventory		Listed
Chinese Chemical Inventory of Existing Chemical Substances		Listed
Korea Existing Chemicals List		Listed

## SECTION 16: Other information

Informationon revisionCreate DateJuly 15,2024Revision DateJuly 15,2024

Other information

The substance can be absorbed by ingestion, but no harmful effects have been found.

Any questions regarding this SDS, Please send your inquiry to service@dxchem.cn

Disclaimer: The above information is believed to be correct but does not purport to all inclusive and shall be used only as a guide. The information in this document is based on the present state of our konwledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product. We as supplier shall not be held liable for any damage resulting from handling or from contact with the above product.
